TECHNICAL DATA

Model	LTS 138 B	LTS 140 B	LTS 150 B
Transfer area	38 x 45 cm	40 x 37 cm	40 x 50 cm
Digital timer	0-999 sec	0-999 sec	0-999 sec
Temperature	0-250 °C	0-250 °C	0-250 °C
Watt	2000 W	2000 W	2000 W
Power	220-240 V	220-240 V	220-240 V
Weight	45 kg	45 kg	50 kg

**THE ORIGINAL
FROM MILAN
SINCE 1972**

LTS 138 B, LTS 140 B, and LTS 150 B are ideal for transfer jobs onto both large and small textiles, including t-shirts, sweat-shirts, and sportswear.

The freestanding support plate of each press allows you to mount textiles easily in a single layer; only the fabric segment to be printed rests on the support plate. Prints previously applied to the textile remain unaffected, and creases impairing the printing result (usually caused by two layers) are easily avoided. Pressure can be continually adjusted with an easily accessible dial.

With swivel presses, the heating plate can be swiveled to one side, so that the support plate is no longer covered by it. This simplifies your work process in two respects: first, mounting the textile is even more convenient, and secondly, you have a clear view of the entire textile, allowing easy positioning of the transfer.

Thanks to its modular design, only a single press is required to print shirts, jackets, bags, lanyard keychains, and even caps: a variety of support plates can be quickly and conveniently interchanged.

The clearly arranged digital display allows you to conveniently set and control transfer time and operating temperature. High-quality heating technology provides quick warmup. Even and constant operating temperature is guaranteed as well as extended durability of the heating elements.

The digital temperature control includes both audio and clear visual signals to indicate release time – making your work even easier.

Optional accessories

In addition to the original support plate, support plates in other sizes are also available. Popular sizes include breast pocket format (Fig. 2), the oblong format for transferring onto sleeves and trouser legs (Fig. 3), and the rectangular format for girlie t-shirts (Fig. 4) as well as a format for umbrellas (Fig. 6).

We can also produce any customized dimensions to fulfill your requirements.

All cap sets (Fig. 1) allow adjustment of the pressure shoe by moving support plate back and forth. This indispensable feature makes it possible to compensate for different forehead heights of caps: adjustment of the shoe allows optimum positioning under the bent heating plate.
